Surveyor-General's Direction No. 8
Mining Tenure Surveys
Industry Consultation and Review

DCS Spatial Services is currently undertaking a review of Surveyor-General's Direction No. 8 – Mining Tenure Surveys. The review is to modernise the current Direction and provide clear guidance on the preparation of Mining Tenure plans.

As part of the review, the NSW surveying industry and wider community are invited to provide comment on the changes proposed in the Draft Surveyor-General's Direction No. 8.

The draft PDF document is available for download at the DCS Spatial Services website.
