

# Remote Sensing Services and Equipment Prequalification Scheme

## Organisation Capacity & Capability

Information provided in this template will be used to assess the applicant’s capacity and capabilities for acceptance on the Remote Sensing Services and Equipment prequalification scheme (SCM5841).

### Employee Distribution

**Instructions:** Enter the number of employees according to their role and geographic location.

	Management	Administration	Sales & Marketing	Technical	Service & Support	Total
<b>Regional NSW</b>						
<b>Metro NSW</b>						
<b>Other States &amp; Territories</b>						
<b>International</b>						

## Relative Experience

**Instructions:** list evidence of experience within the last 3 years as a vendor in the specific sub-category/ies nominated by the Applicant. You can list up to four engagements for each sub-category. If you wish to add additional projects, add extra lines to this table. An example of the information required is provided in the table below.

Name of engagement or project	Brief description of work completed or the items supplied	Nominated category / ies	Location of engagement	Contract Price	Start Date	Delivery Date	Client Organisation & contact
Imagery of Dubbo NSW	Capture and processing of 10cm RGB imagery over Dubbo NSW. Horizontal accuracy achieved was $\pm 20$ cm. Product delivered was a 10cm mosaic.	B2	Dubbo NSW	\$183,000	12/12/17	23/3/18	DFSI Spatial Services John Citizen <a href="mailto:john.citizen@finance.nsw.gov.au">john.citizen@finance.nsw.gov.au</a> 02 9999 9999
