Contents

How to find features in this document

The features in this document are listed by topographic theme and feature class and by a feature alphabetical listing. The easiest to find a feature is by using the 'Find' function in Adobe Reader.

For example, if you are interested in police stations press Ctrl+F or from the menu bar click on Edit – Find and type the word 'police' into the Find Window. The Find Window may look different to the one pictured depending on the version of Adobe Reader being used. Initially, Police Station will be found under the Cultural listing.

Click on the arrow again in the Find Window to go to the next Police Station occurrence in the document. In this case, the occurrence is in the alphabetical listing section of the document.

Purpose

The purpose of this document is to provide a basic understanding of the content and currency of features in the Digital Topographic Theme Data. This document can be read in conjunction with the following:

- NSW Spatial Data Catalogue

- Topographic Theme Data Dictionary

- Topographic Theme Product Descriptions

- Topographic Theme Feature Reference Guide
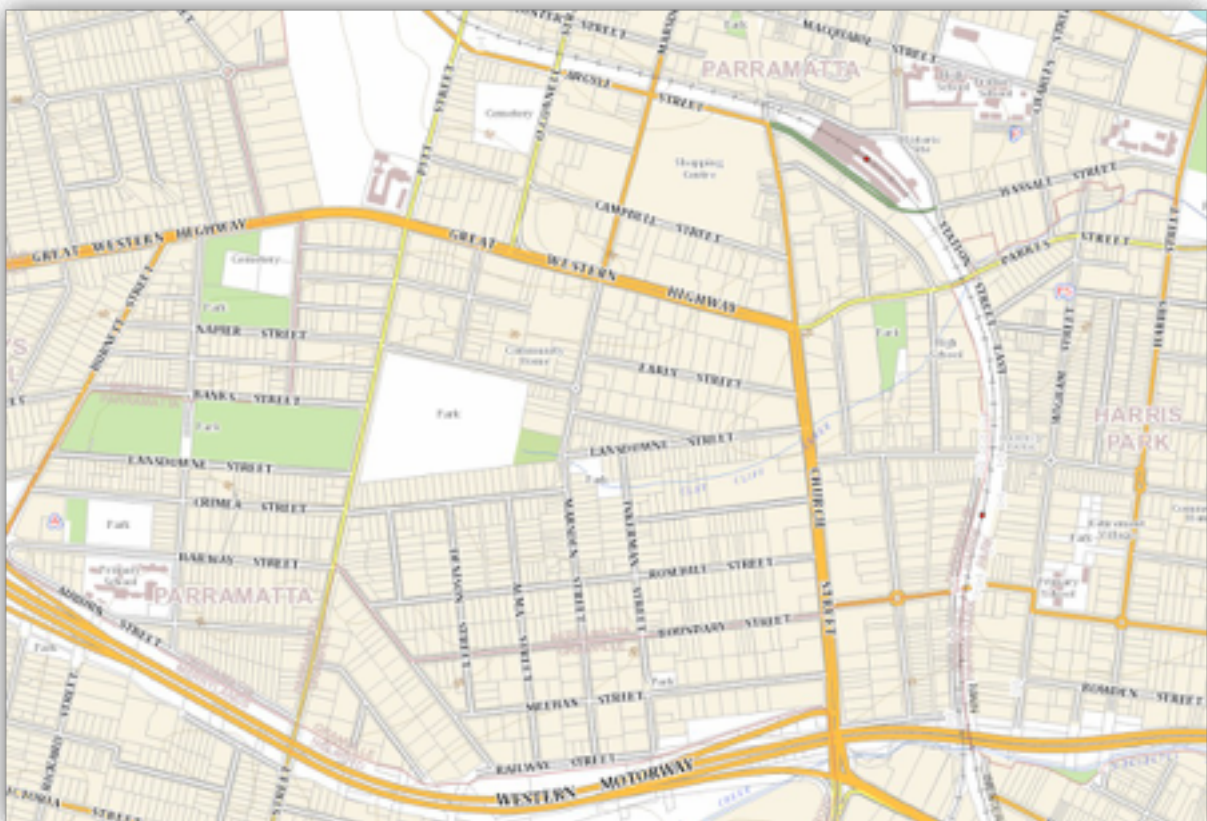

- Topographic Theme Capture Rules

There are four tiers of data in the topographic themes data model:

Tier 1: Theme

Tier 2: Feature Class

Tier 3: Class Subtype

Tier 4: Domain Value Name

Features listed by Theme or Category

NSW Features of Interest Category

Feature Class	Class Subtype	Domain Value Name
Building Complex Point		
	1. Education Facility	
		0: Undefined
		1: Primary School
		2: High School
		3: Technical College
		4: University
		5: Academy
		6: Special School
		7: Pre-School
		8: Combined Primary/Secondary School
	2: Community Facility	
		0: Undefined
		1: Ambulance
		2: Art Gallery
		4: Nursing Home
		5: Convent Monastery
		6: Court House
		7: Embassy
		8: Fire Station - Bush
		9: Fire Station - Urban
		10: Gaol
		11: Library
		12: Local Govt Chambers

Further information

For further information please contact: DCS Spatial Services via the Customer Hub

The DCS Spatial Services Customer Hub has been developed to provide our customers with a central contact point to interact with DCS Spatial Services staff. This user-friendly platform will be the primary way for customers to make an enquiry, submit a data request or provide feedback.
